# User Management — Role-Based Portals (Admin · Officer · Citizen)

SCGIP — Sanitation Co-Governance Intelligence Platform · SDG 6

## Platform Features

Everything you need for transparent sanitation governance

### Smart Complaint Reporting

Submit complaints with photos, GPS location, and ward selection. Track them in real-time.

### Auto-Escalation

Complaints unresolved after 30 days are automatically escalated for urgent attention.

### Community Verification

Citizens verify resolved complaints. Low scores reopen complaints for quality assurance.

### SERI Analytics

Sanitation Equity & Risk Index scores per ward with recurrence and trend analysis.

### Report Export

Generate CSV, Excel, and PDF governance reports for ward-level performance analysis.

### AI Chatbot Assistant

Ask questions about the platform, complaint statuses, policies, and get instant answers.

## How It Works

Simple 4-step process for citizens and administrators

1

Report

2

Track

3

Verify

4

Improve

# SCGIP Platform — Portal View

## Smarter Sanitation Governance

AI-powered platform for transparent, accountable,  
and community-driven sanitation management.

### Smart Complaint Reporting

Photo, GPS, real-time tracking

### Auto-Escalation

30-day SLA with automatic alerts

### Community Verification

Citizen-powered quality assurance

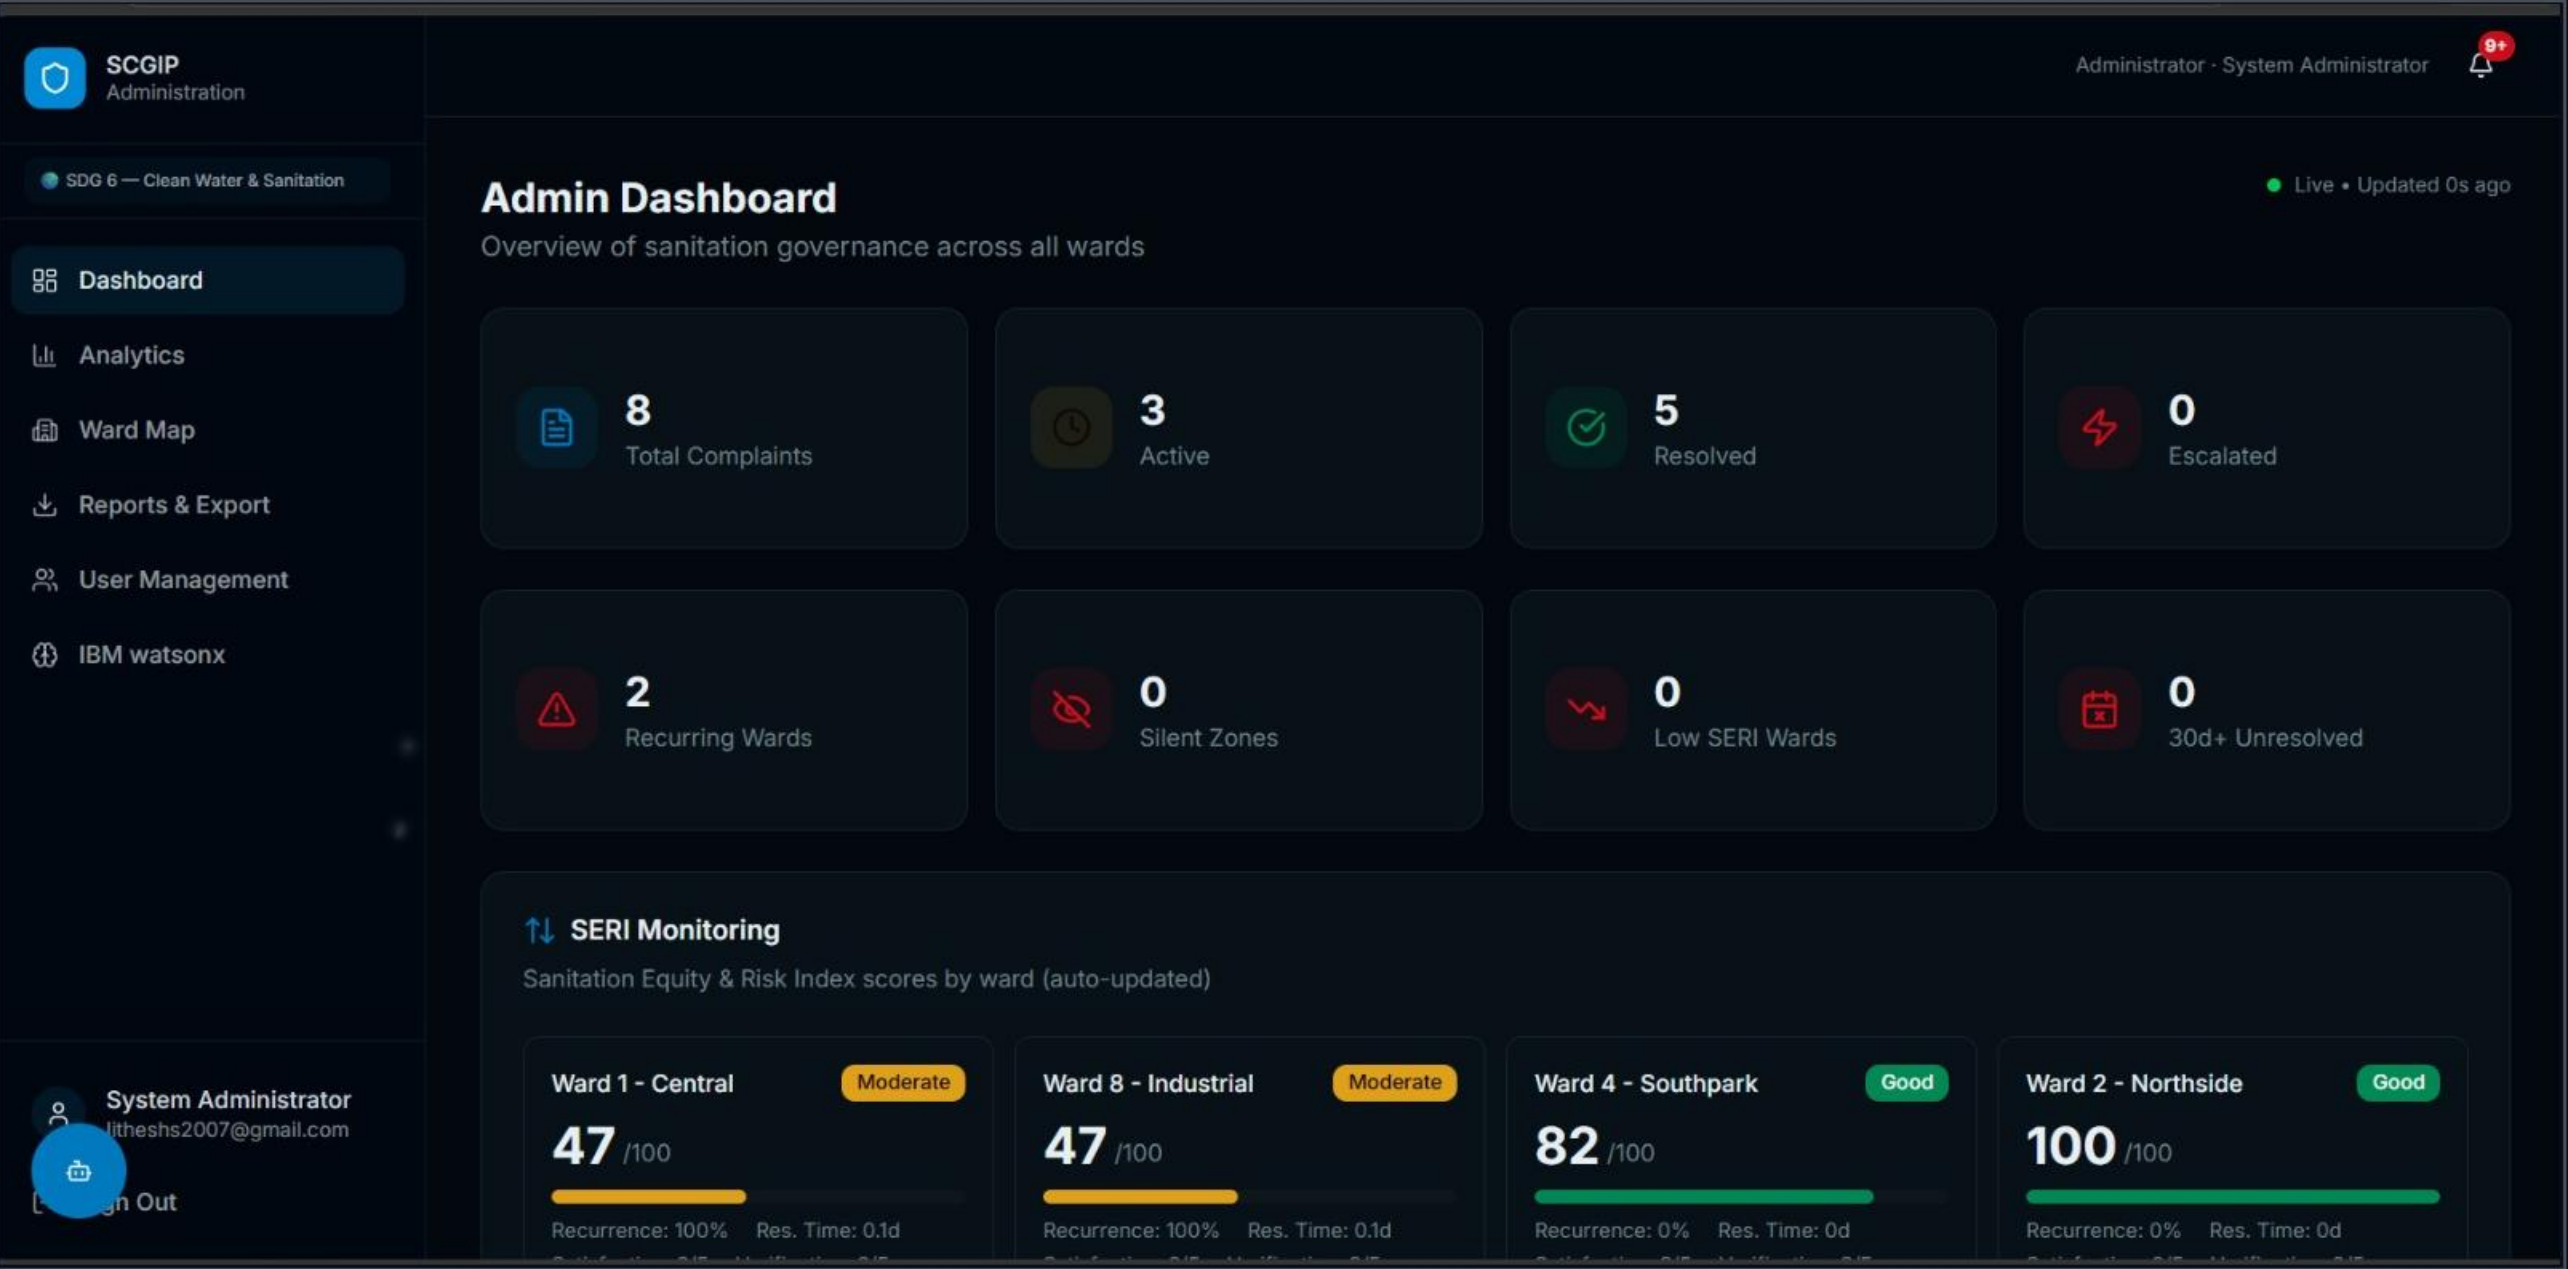

### SERI Analytics

Ward-level equity & risk scoring
